PROFESSIONAL SUMMARY

Software Engineering student at Ghana Communication Technology University (GCTU) with practical experience building modern web applications using React, TypeScript, Vite, Tailwind CSS, PostgreSQL and Supabase. Experienced in developing responsive, user-focused applications ranging from finance platforms and inventory management systems to climate technology solutions. Passionate about writing clean, maintainable code, collaborating in development teams, and continuously learning modern software engineering practices.

TECHNICAL SKILLS

Languages: HTML5 • CSS3 • JavaScript (ES6+) • TypeScript • Rust (Learning)

Frontend: React • Vite • Tailwind CSS • React Router • TanStack Query

Databases: PostgreSQL • Supabase

Tools: Git • GitHub • VS Code • Chrome DevTools • Vercel

Other: Responsive Design • UI/UX • SEO • Accessibility • Performance Optimization • Agile Development

PROJECT EXPERIENCE

MoneyGrid | Personal Finance Management Platform

Tech Stack: React • TypeScript • Tailwind CSS • Supabase

- Developed a personal finance application for tracking income, expenses, budgets, and financial insights.
- Integrated secure authentication and cloud database services using Supabase.
- Built a responsive dashboard optimized for desktop and mobile devices.

Live Demo: <https://moneygrid.vercel.app/>

Verdis (*Team Project*) | Climate-Smart Farming Platform

Tech Stack: React • TypeScript • Tailwind CSS

- Contributed to the development of a web platform promoting climate-smart farming practices.
- Built responsive and accessible user interfaces for farmers and stakeholders.
- Collaborated with developers using Git and GitHub to deliver project features efficiently.

Live Demo: <https://verdis-farm.vercel.app/>

Klavora (*Team Project*) | Pharmacy Inventory Management System

Tech Stack: React • TypeScript • Supabase

- Developed responsive interfaces for managing medicines, inventory, and pharmacy operations.
- Improved usability through clean, intuitive UI components.
- Worked collaboratively using Git workflows to deliver application features.

Live Demo: <https://klavora-pharma.vercel.app/>

LeapBod (*Team Project*) | Student Opportunities Platform

Tech Stack: React • TypeScript • Tailwind CSS

- Built features for discovering internships, scholarships, jobs, and student events.
- Implemented search and filtering functionality for improved user experience.
- Designed responsive layouts across desktop and mobile devices.

Live Demo: <https://leapbod.vercel.app/>

TradeLens | Financial Dashboard

Tech Stack: React • TypeScript • Tailwind CSS

- Developed a responsive financial dashboard with reusable components.
- Focused on performance, accessibility, and clean interface design.

Live Demo: <https://trade-lens-finance.vercel.app/>

Portfolio Website

Tech Stack: React • TypeScript • Tailwind CSS

- Designed and developed a personal portfolio showcasing projects, skills, and technical experience.
- Optimized the website for SEO and performance.

Live Demo: <https://dhollarsign.vercel.app/>

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

Git Plus | February 2025 – April 2025

- Developed and maintained frontend features for client applications.
- Collaborated with developers using Git and GitHub for version control.
- Debugged and optimized applications to improve performance and user experience.
- Participated in code reviews and Agile development workflows.

EDUCATION

Bachelor of Science (BSc.) in Software Engineering (*In Progress*)

Ghana Communication Technology University (GCTU)

Expected Graduation: November 2027

CERTIFICATIONS

- Workflow Specialist — Asana
- Responsive Web Design — freeCodeCamp
- Cambridge International Qualifications — Cyber Laws
- Data Privacy & Protection
- Certificate in Tech Innovations
- Basics of Operations and Project Management — UniAthena
- Binance Expert — Binance School Africa
- Social Media Marketing — HP LIFE

PROFESSIONAL HIGHLIGHTS

- Built and deployed 6+ modern web applications using React, TypeScript, Tailwind CSS, and Supabase.
- Collaborated on software development projects using Git, GitHub, and Agile workflows.
- Developed responsive, SEO-friendly web applications with a strong focus on accessibility and performance.
- Experienced integrating frontend applications with REST APIs and cloud backend services.
